Games with friends and Teachers

The Jaguars have been sharing their knowledge of various card games with the teachers. During the games the teachers play two different ways. The first way is with the correct rules for the game the second is the way the children have made up. Encouraging children to create their own versions of the game and explain the rules of the game to the small group. Some of the best games have been the games the children have created.

Building Block Mazes

The Jaguars work together to create various size wooden blocks mazes for their animals. Challenging themselves to create archways and complex structures that could hold the weight of the different size animals. The Jaguars also made the structures with multiple traveling exits so the maze could be used for cars traveling and hex bugs as well.

Express Yourself

During free play time, the children get to choose an activity where they lead the play. Max and Johnny used this time to practice their basketball skills with Mr. Jamil and learned different techniques for shooting at the taller hoops. Roxanna, Viyanna, and Amaiyra used their time to talk about their day and color self-portraits and different sketches of things they like. Freeplay allows children to fully express themselves without anyone or anything holding them back
