Washing Gourds In Soapy Water

This week the Busy Bees explored washing gourds in soapy water! The babies worked to clean the gourds in a large tub and enjoyed picking them up playfully then dropping them back down causing splashes on the water! As the babies played, Ms. Rani talked with them about the texture of the gourds and put them on each of baby's hands for them to feel the hard, uneven surface of the gourds.

Building With Tree Blocks

The Busy Bees enjoy stacking and building a variety of blocks that are available to them throughout the day! To build on the children's interests, this week the teachers added natural tree blocks to the classroom and encouraged the babies to explore. Simon used his emerging logistical reasoning skills to figure out how he needed to place the blocks so he could build upwards while Josephine enjoyed knocking down the towers that Ms. Dode built which was a great way for her to explore concepts such as cause and effect!

Making a fall leaf collage on sticky paper

The Busy Bees explored more about fall leaves this week by making a collage on a sticky paper. While the babies picked up and paste the leaves on the sticky paper, the teachers talked about the leaves' colors and described the sticky feeling as their hands touched the paper while stamping the leaves on it! What a fun way to practice the babies' sense of touch and appreciation of the colorful leaves!

2017

01. January	02. February	03. March
04. April	05. May	06. June
07. July	08. August	09. September
10. October	11. November	12. December

Important updates:

- Remember to bring extra set of clothing for your child to keep at the center. It is a good idea to make sure that any clothing currently at the center is appropriate for the weather.

Dear parents,

Don't forget to set your clocks 1 hour back this Sunday November 5th for daylight savings.
