December 18-22, 2017

Taking A Walk And Tallying The Different Vehicles

During large group time in the afternoon, the Dino's had an interesting experience. We went on a walk around the neighborhood to see the different kinds of cars driving on the road. On our walk Olivia pointed out a truck and said "My family drives a car like that" When the Dinosaurs returned to the classroom we did shared writing and discussion on the many cars we saw on our walk that afternoon. The Dino's each had a chance to make a tally mark underneath the pictures of different cars they saw. This activity promotes cognitive development, language, literacy, math and physical development.

Why Do We Have Roads?

For one afternoon Large Group this week, the Dinosaurs did a Shared Writing. The Dino's teacher asked the children to come up to the board and one by one we asked them "Why do we have roads?" Riley said, "without them we can't go to school or home." Alexandra said, "if we didn't have roads we wouldn't be able to go anywhere". This activity promotes literacy, language and cognitive development.

Matching Letters

To help the Dinosaurs in learning their letters, the teachers had the children identify the first letter in their name. First, they were asked to find their “special” letter. Then, we pronounced that letter and asked if their letter could make any other sounds. We noticed that Stella starts with a /s/ sound. We also looked at the shape of our letters and how it was made up of straight and curved lines. Then, the children continued by tracing the letters with their fingers. The Dinos really enjoyed recognizing the letters of their names.

2017

01. January	02. February	03. March
04. April	05. May	06. June
07. July	08. August	09. September
10. October	11. November	12. December
