Geography game: Maptangle

This week we introduced a fun game that brings geography and the game twister together. We split into teams of 2. Then, we had a reader who chose a card which tells you a destination on the globe mat and the teammate would have to stand on that spot. The play goes on as the children find the oceans, rivers, continents and countries until someone loses their balance and falls. Game over, and start again for more learning fun!

The Dancing Rice Experiment

The Tigers are always eager to explore and experiment the concepts of cause and effect. To build on their interest, they were challenge to experiment with rice, colored water and baking soda. First, Davone added 1 cup of colored water to the pitcher. Then, Ama added some rice to see what would happen. The rice sank to the bottom of the pitcher. Then, we added a combination of 2 parts baking soda and 1 part vinegar to the pitcher. We watched the rice rise to the top of the pitcher and sink back down. We took turns adding watercolor to see if it would have any affect on the rice. It didn't, but it did change the water making it green, green.

2017

01. January	02. February	03. March
04. April	05. May	06. June
07. July	08. August	09. September
10. October	11. November	12. December

1010 Grandin Ave | Rockville, MD 20851
P: 301.424.8952 | erin.rodriques@mccaedu.org

Important updates:

MCCA will be closed on
Monday December 25th
Tuesday December 26th
Wednesday December 27th
Monday January 1st

We will be open on Thursday Dec. 28th and Friday
Dec. 29th 7:00am-6:30pm

We hope you all have a safe and happy Holidays!
